SUMMARY

*Software Developer with experience in backend development using **Java, Spring Boot and REST APIs**, focused on building scalable backend systems and modular architectures. Strong background in layered architecture, MVC patterns, and Clean Architecture, with experience in relational databases and API integrations.*

*Experienced working in agile teams, collaborating with frontend developers and contributing to secure authentication flows and backend services. Knowledge of **JavaScript, React.js and Node.js**, allowing participation in full-stack environments.*

*Certified in **Oracle Cloud Infrastructure Foundations**, with training in modern backend development and cloud fundamentals.*

PROFESSIONAL EXPERIENCE

No Country

Remote

Software Developer (Backend & Security)

Dec 2025 – Jan 2026

- Contributed to the implementation of **Spring Security**, including configuration of CORS policies and JWT authentication.
- Modified authentication components such as **AuthController and security filters** to improve authentication flow.
- Designed and initiated the development of the **PredictController**, defining REST endpoints and controller structure.
- Standardized **HTTP responses and error handling** across backend endpoints.
- Collaborated with frontend developers to ensure correct **API integration and data communication**.
- Worked in a **Scrum-based agile environment**, coordinating with backend team members to maintain consistent system behavior.

Freelance — Patient Management System

Bahía Blanca, Argentina

Full Stack Developer

Feb 2025 - Jul 2025

- Designed and developed a **full-stack patient management system** for psychologists and psychopedagogues.
- Implemented backend services using **Node.js (Express) and PostgreSQL**, leveraging **Supabase** for database management.
- Built the frontend with **React.js**, integrating REST APIs through Axios.
- Implemented **JWT-based authentication and session management** to secure user access.
- Improved the organization and retrieval of patient records, reducing administrative workflow time by **approximately 30%**.

Cooperation.org (LinkedTrust)

Remote

Junior Usability Tester

Aug 2023 - Nov 2023

- Conducted usability testing on the **Live Claims workflow**, identifying UI and UX issues related to navigation and clarity.
- Analyzed and documented improvements for authentication processes and backend-related flows.
- Reported usability insights that contributed to improving the platform's user experience.

PROJECTS

BankIT — Loan Simulation Microservice

Dec 2024 - Feb 2025

GitHub: github.com/brendayw/bankIT

- Developed a **RESTful microservice** for bank loan simulation using **Java and Spring Boot**.
- Implemented business logic for **loan calculations and financial validations**.
- Designed a **layered architecture inspired by Clean Architecture**, improving maintainability and scalability.
- Implemented **authentication and authorization using Spring Security**.
- Configured persistence with **Spring Data JPA and MySQL**, including database migrations with **Flyway**.
- Developed **unit and integration tests** using JUnit and Mockito.
- Documented API endpoints with **Swagger/OpenAPI**.
- Applied **Builder and Factory design patterns** to improve flexibility and readability.

EDUCATION

Universidad Tecnológica Nacional (UTN)

Graduated

Associate Degree in Programming

COURSES & CERTIFICATIONS

- | | |
|---|-------------|
| • Oracle Cloud Infrastructure Foundations Associate — Oracle | 2025 |
| • Java, Spring Boot — Oracle Next Education (Alura) | 2025 |
| • Docker Fundamentals — Código Facilito | 2025 |
| • Building a REST API with Spring Boot — Spring Academy | 2024 |
| • Introducción a la programación — Universidad de La Punta – (Argentina Programa 4.0) | 2022 – 2023 |

SKILLS

- **Technical skills:** Salesforce, Java, JavaScript (Node.js, React.js), Spring Boot, Spring Security, Spring Data JPA, Hibernate, Express.js, MySQL, PostgreSQL, Supabase, Maven, Git, GitHub Actions, Docker (basic), JUnit, Mockito, Postman, REST APIs, Microservices, MVC, Clean Architecture, Agile (Scrum/Kanban).
- **Languages:** Spanish (Native), English (Upper-Intermediate – B2).
- **Soft skills:** Analytical Thinking, Attention to Detail, Problem Solving, Team Collaboration, Clear Communication, Adaptability.
